Phase II Activation of the Heat Contingency Plan

Phase II actions of the California Heat Contingency Plan are taken as a result of the issuance of a Special Weather Statement by the National Weather Service predicting an Excessive Heat Warning for an Operational Area or power outages during warmer-than-normal weather conditions Phase II of the Heat Contingency Plan has been activated as of Saturday, 06/17/17 due to forecasts of dangerous and excessive heat.

- Per the National Weather Service (NWS):
 - An Excessive Heat Warning has been extended through Saturday evening over much of the Sacramento and Central Valleys, and for portions of Southern California.
 - In addition to the Excessive Heat Warnings, Heat Advisories are in effect for surrounding areas with high temperatures forecast to gradually subside over the weekend, but daytime valley highs will still be hot in the upper 90s to low 100s.
 - Red Flag Warning in effect for the central Sacramento Valley through noon today for high temperatures and winds with poor humidity recovery in these areas.
 - Prolonged exposure to these temperatures will increase the risk of heat related illnesses such as heat exhaustion and heat stroke.
 - · Heat stress possible for livestock with limited relief from the heat overnight.
 - Area waterways are running very cold and fast, increasing risk for hypothermia and water rescues.
 - Phase II actions of the California Heat Contingency Plan has been extended from Wednesday 06/21/17 through Friday 06/23/17.
- Cal OES has created a page listing Summer Heat Resources including a map of cooling centers around the state, see link below. http://www.caloes.ca.gov/ICESite/Pages/Summer-Heat-Resources.aspx

EMAC and Public Assistance - 2017 Winter Storms

Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.

See Cal OES Mission Tasking slide for Mission Tasking information

Cal OES INLAND REGION

Flooding / Evacuations, Riverland Resort, Kingsburg, Tulare County

On 06/18/17 at 1000 hours, Riverland Resort in Kingsburg, Tulare County experienced out-of bank flooding along a non-leveed area of the Kings River. Riverland Resort is a recreational park with cabins, apartments, RV sites and amenities available for rent. The flooding is a result of Pine Flat Reservoir releases increasing to 12,800 cfs through the end of June. Reservoir inflows and resulting releases are expected to peak Wednesday, 06/21/17.

- On Sunday 06/18/17, the Cal OES Inland Duty Officer (IDO), requested mission tasking to provide sandbag assistance at the resort, the Cal OES Executive Duty Officer (EDO) approved the mission, which has been closed as of Monday 06/19/17.
- On Tuesday 06/20/17 and Wednesday 06/21/17, the IDO requested mission tasking to provide sandbag assistance at the resort, the EDO approved the mission. See Cal OES Mission Tasking slide.
- The Flood Operation Center (FOC) is currently evaluating hydrologic conditions and had a Flood Flight Specialist onsite Tuesday 06/20/17.
- The Kings River Conservation District has initiated 24 hour monitoring of this area.

Evacuations

Per the Cal OES Law Duty Officer (LDO) on 06/20/17 at 0846 hours:

- On 06/19/17, Tulare County issued a mandatory evacuation order for the Riverland RV and Campground.
 - Approximately 300 people have been evacuated from the resort.
- On 06/21/17, Fresno County Sheriff is advising that they have Deputies stationed at the Riverbend Trailer Park.
 - There are 43 residents who evacuated.
 - There were 13 residents who remained in their houses.

Shelters

American Red Cross Shelter: Reedly High School, 740 W. North Ave, Reedly

- Midnight Count: 11 residents.
- This shelter is taking residents from Riverbend Mobile Home Park (Tulare County) and Riverland RV Park (Fresno County) due to close proximity.

Road Closure

Per the LDO on Monday 06/19/17 at 2249 hours:

- Localized flooding only and only the resort has been impacted.
- · No hard closures to any major roads.
- See 2017 Statewide Winter Storms Slides

Cal OES COASTAL REGION

See 2017 Statewide Winter Storms Slides

Cal OES SOUTHERN REGION

See 2017 Statewide Winter Storms Slides

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ½ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

Solano County: Sacramento River at Rio Vista

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville
- Stanislaus County: Tuolomne River at Modesto

River Forecast - The following river is forecast to meet or exceed Flood Stage:

- Mariposa County: Merced River at Yosemite Pohono Bridge is forecast to exceed flood stage at 10.0 feet the morning of 06/24/17.
 - Potential Impacts: Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

Please see link for River Forecast Guidance - http://www.cnrfc.noaa.gov/

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood Stage:

- Mono County: West Walker River at Highway 395 below Little Walker is forecast to exceed flood stage at 6.0 feet and up to 6.8 feet through 06/27/17.
 - At 6.0 feet, some minor flooding of lowlands, pastures and rural roads.
 - At 6.6 feet, minor to moderate flooding of lowlands, pastures and some rural roads along river from Walker to Topaz Lake.

Please see link for River Forecast Guidance - http://www.cnrfc.noaa.gov/

Highway, Vegetation Fire, Kern County

Location: HWY 178, west of Lake Isabella

Jurisdiction: Federal DPA, FRA, Sequoia National Forest

Start Time: 06/18/17 at 1422 hours

Per CAL FIRE, Cal OES Fire Duty Officer (FDO) and ICS-209 of 06/23/17 at 0619 hours:

- 1,522 acres, 95% contained
- Expected Containment Date: 06/25/17
- · No anticipated fire spread
- · Continue direct hand line construction and air support
- 5 Local Government Engines assigned under local agreement
- 1 Cal OES Fire Rescue Branch Assistant Chief Assigned.

Holcomb, Vegetation Fire, San Bernardino County

Location: Highway 18 x Holcomb Valley Rd, east of Big Bear Lake Jurisdiction: Federal DPA, FRA, San Bernardino National Forest

Start Time: 06/19/17 at 1505 hours

Per CAL FIRE and the Cal OES Fire Duty Officer (FDO) as of 06/23/17 at 0621 hours:

- 1,562 acres, 65% Contained
- Expected Containment: 06/27/2017
- Type-2 Incident Management Team (IMT).
- 6 single residential and 1 commercial structures along with infrastructure threats (power lines and high pressure gas lines).
- Construct hand lines and advance hose lays, protect critical infrastructure.
- 20 Local Government Engines and 8 Water Tenders assigned under local agreement.
- 1 Cal OES Water Tender assigned.
- 2 Cal OES Fire Rescue Branch Assistant Chiefs assigned.

Service Interruptions: (FINAL)

On 06/22/17 at 0729 hours, the California State Warning Center (CSWC) was notified by the Cal OES 911 Branch that a landline telephone service outage has occurred in Independence, Inyo County.

- 1,123 lines were impacted.
- The affected lines did not have the ability to dial 9-1-1
- 9-1-1 landline calls for Inyo County that transit through Bishop were rerouted to the Mono County Sheriff's Office.
- The PSAP was still able to receive wireless 9-1-1 calls.
- The outage was due to a fiber optic cable that was cut 5.7 miles out from the Independence Central Office.
- Frontier technicians spliced 1000 feet of fiber optic cable.
- Frontier advised that melting snow has washed out and demolished buried fiber optic cables.
- Service was restored 06/22/17 at 1440 hours.

Remote/Community Isolations:

· None reported

WEATHER OF CONCERN

Weather of Concern

- High pressure over the west coast will bring hot temperatures again today across most of Northern California.
- An upper level ridge of high pressure will bring continued very high temperatures to southwest California through the weekend. Overnight lows will also remain warm (in the 70s) across portions of the valleys, mountains, and Antelope Valley, adding to the heat stress.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php Temporarily unavailable.
- https://alerts-v2.weather.gov/counties/CA

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Very Hot/Dry through Saturday, with North - Northeast Winds Diminishing Midday Today ***

*** Increasing Thunderstorm Chances Over Higher Terrain Sunday ***

Strong high pressure will remain over Northern California through Saturday. Gusty North - Northeast surface winds from the western Cascade-Sierra slopes to the coast will diminish midday today. Temperatures will still reach 15-20° above normal today and Saturday. Afternoon humidity will be 10-20% in many inland areas, with areas affected by the downslope winds as low as 5-15%. Light overnight downslope winds are still expected in wind-prone inland areas, and overnight relative humidity (RH) recovery will only be to 30-40% there. Isolated thunderstorms today and Saturday will stay mainly in the Sierra from the Lake Tahoe area south.

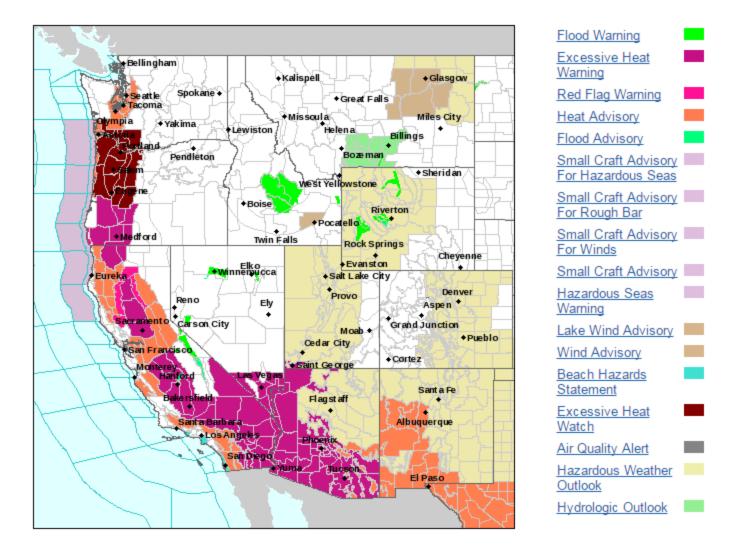

The high pressure ridge will weaken starting late Sunday and a low pressure trough will approach the coast. The sea breeze will bring cool humid air into coastal regions and the delta breeze will begin to bring relief from the heat wave to the Sacramento Valley and foothills during the afternoon. Areas inland from the coast but not exposed to marine influences will remain hot and dry on Sunday. Thunderstorm chances will increase over the higher terrain late on Sunday. Next week temperatures will be closer to normal as a series of low pressure troughs move through. Higher elevations and areas east of the Cascade-Sierra crest will have occasional afternoon South - West winds gusting to 20-30 mph. This pattern will also allow a daily chance of afternoon and evening showers and thunderstorms, but with rainfall.

SOUTHERN CALIFORNIA

Above Normal Temperatures through the Weekend

The cooling trend that began yesterday will continue today with temperatures dropping another 3-4° over most areas. The marine layer is significantly deeper which will lead to slower burnoff this morning across the coastal and intermediate valleys. However, temperatures will still be a few degrees above normal with readings in the mid and upper 90s in the valleys, 101-104 in the San Joaquin Valley to 110 or so in the low desert. Northwest winds of 15-25 mph will be possible this afternoon across the Antelope Valley as well as the Kern County Mountains. Isolated storms will be possible this afternoon near the Sierra Crest. This weekend, high pressure will move a bit closer to the region which will lead to a pause in the recent cooling trend. Expect temperatures Saturday and Sunday to be about the same as today with less marine layer cloudiness. Local north winds of 10-20 mph will be possible tonight into Saturday morning along the I-5 Corridor and the higher elevations of the Santa Ynez Range. Minimum RH will be in the 8-12% range across most desert-adjacent areas of the mountains the next 3 days. This weekend, RH will also drop toward the single digits across northern Los Angeles County and Santa Barbara County with fair to poor RH recovery. Northwest winds of 15-25 mph will also occur along the central coast during the afternoon both Saturday and Sunday. Isolated storms will continue in the highest elevations of the Sierra over the weekend. The rest of the area may see some high clouds and flat cumulus clouds near the higher terrain. Next week, a trough over the Pacific Northwest will bring stronger onshore flow and cooler temperatures. Temperatures should finally drop back closer to normal by next Tuesday. It may turn breezy in and near the deserts by the middle of next week.

WEATHER MAP

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- 2017-LAW-36646, 06/22/17, 1515 hours, Air Force Rescue Coordination Center (AFRCC) reported a Personal Locator Beacon (PLB) that sounded in the San Francisco Area. The Cal OES Law Enforcement Duty Officer (LDO) contacted the registered owner (R/O) of the device who advised the LDO that he was testing the device and turned it on accidentally. AFRCC has been advised. Mission Closed.
- 2017-LAW-36655, 06/22/17, 1430 hours, International Emergency Response Coordination Center (IERCC) reported a SPOT device activation. The coordinates plotted to an area in Inyo County. IERCC advised that they had contacted the emergency contact number (wife of R/O). They were advised that the R/O was hang gliding with a large number of hang gliders out of Bishop Airport. Inyo County Sheriff's Department (ICSD) was notified and LDO was advised that Mono County Sheriff's Department (MCSD) was working an incident involving a hang glider. Update: 06/22/17, 1500 hours, ICSD advised that MCSD had confirmed that the r/o of the device is the pilot of the glider. Update: 06/22/17, 1730 hours, MCSD advised that the glider crashed in Inyo County and that they are assisting ICSD with rescuing the pilot. LDO was able to make contact with the pilot via cell phone and learned that he had minor injuries. Pilot was advised that the rescue attempt was in progress. ICSD advised that a CHP helicopter was enroute from Fresno to assist with the rescue. Update: 06/22/17, 1900 hours, ICSD advised that the pilot had been rescued and treated and released with minor injuries. Mission Closed.

Cal OES MISSION TASKING

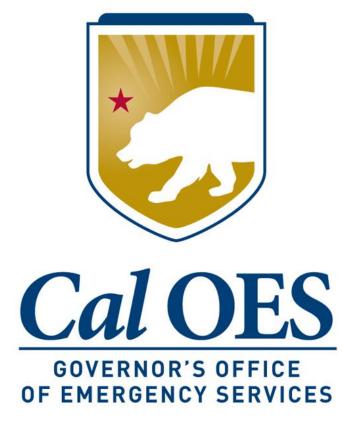

Cal OES Missions

- 2017-SREOC-36623: CAL FIRE to provide 2 Crews for Flood Fight Support, Inyo County.
- 2017-INLAND-36489: CAL FIRE and CDCR tasked to provide one Strike Team and two hand crews to sandbag around the Riverland RV Park and Campground, Kingsburg, Tulare County. **Mission Closed.**
- 2017-SOC-36293: Three Public Assistance Coordinator from the state of Colorado has been assigned to California through the EMAC system
- 2017-SOC-36209: Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- 2017-SOC-34379: Technical specialist for spillway floor inspections at Oroville Dam, Butte OA Demobilizing

<u>Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA</u>

Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
